Alice Stephens, an actress and advocate for adoption

A Journey of Love and Discovery

Alice Stephens was adopted by a loving family when she was just a baby. She grew up in a supportive and nurturing environment, where her parents instilled in her a deep sense of belonging and self-worth.

"I have always known that I was adopted," says Alice. "My parents made sure to talk to me about it openly and honestly. They wanted me to feel loved and secure, and they made me understand that adoption was a choice they made out of love."

“Adoption is not about finding a perfect child, but about creating a perfect family.”

As Alice grew older, she became curious about her biological roots. With the support of her parents, she decided to search for her birth family. It was a challenging and emotional journey, but it ultimately led to a reunion that brought her a sense of closure and completeness.

A Passion for Acting and Role Models

Alice's love for acting began at a young age. She participated in school plays and local theater productions, discovering her natural talent and passion for performing.

"I want to show the world that adopted people are just as capable, worthy, and deserving of love and success as anyone else," says Alice. "I want to be a role model for other adopted children and show them that they can achieve anything they set their minds to, regardless of their circumstances."

A Voice for Adoption

Beyond her acting roles, Alice has become an outspoken advocate for adoption. She shares her personal story, speaks at events, and works with organizations dedicated to raising awareness about the importance of adoption.
