Fabrics are an integral part of our everyday lives. From the clothes we wear to the bedding we sleep on, fabrics touch every aspect of our existence. Understanding the different types of fabrics and their properties is essential for making informed decisions about what to buy and how to care for it.

This comprehensive guide provides a quick reference to fabrics from A to Z. You'll learn about the properties, uses, and care instructions for each fabric type, so you can make the best choices for your needs.

Fabrics From A to Z

Acetate

Properties: Acetate is a synthetic fabric made from cellulose. It is soft, lightweight, and drapes well. Acetate has a silky feel and a slight sheen.

Uses: Acetate is used in a variety of clothing items, including dresses, blouses, and skirts. It is also used in home décor, such as curtains and upholstery.

Care instructions: Acetate is a delicate fabric. It should be hand-washed or dry-cleaned only.

Acrylic

Properties: Acrylic is a synthetic fabric made from polyacrylonitrile. It is soft, warm, and wrinkle-resistant. Acrylic has a similar feel to wool, but it is less expensive.

Uses: Acrylic is used in a variety of clothing items, including sweaters, hats, and gloves. It is also used in blankets and other home décor items.

Care instructions: Acrylic is a durable fabric. It can be machine-washed and dried.

Batiste

Properties: Batiste is a lightweight, plain-weave cotton fabric. It is sheer and has a slight crinkle. Batiste is soft and comfortable to wear.

Uses: Batiste is used in a variety of clothing items, including dresses, blouses, and handkerchiefs. It is also used in home décor, such as curtains and bed sheets.

Care instructions: Batiste is a delicate fabric. It should be hand-washed or dry-cleaned only.

Brocade

Properties: Brocade is a heavy, figured fabric made from silk, cotton, or synthetic fibers. It has a raised pattern that is woven into the fabric.

Uses: Brocade is used in a variety of clothing items, including dresses, jackets, and vests. It is also used in home décor, such as curtains and upholstery.

Care instructions: Brocade is a delicate fabric. It should be dry-cleaned only.

Calico

Properties: Calico is a plain-weave cotton fabric. It is unbleached and has a natural beige color. Calico is sturdy and durable.

Uses: Calico is used in a variety of products, including clothing, bedding, and curtains. It is also used as a backing fabric for quilts.

Care instructions: Calico can be machine-washed and dried.

Cambric

Properties: Cambric is a lightweight, plain-weave cotton fabric. It is finer than calico and has a soft, smooth feel.

Uses: Cambric is used in a variety of clothing items, including dresses, blouses, and handkerchiefs. It is also used in home décor, such as curtains and pillowcases.

Care instructions: Cambric can be machine-washed and dried.

Canvas

Properties: Canvas is a heavy, plain-weave fabric made from cotton, linen, or synthetic fibers. It is strong and durable.

Uses: Canvas is used in a variety of products, including sails, tents, and backpacks. It is also used in home décor, such as curtains and upholstery.

Care instructions: Canvas is a durable fabric. It can be machine-washed and dried.

Chiffon

Properties: Chiffon is a sheer, lightweight fabric made from silk, rayon, or synthetic fibers. It has a soft, flowing drape.

Uses: Chiffon is used in a variety of clothing items, including dresses, blouses, and skirts. It is also used in home décor, such as curtains and scarves.

Care instructions: Chiffon is a delicate fabric. It should be hand-washed or dry-cleaned only.

Corduroy

Properties: Corduroy is a heavy, ribbed fabric made from cotton, linen, or synthetic fibers. The ribs are created by cutting the fabric and then brushing it to raise the fibers.

Uses: Corduroy is used in a variety of clothing items, including pants, jackets, and skirts. It is also used in home décor, such as curtains and upholstery.

Care instructions: Corduroy should be dry-cleaned only.

Cotton

Properties: Cotton is a natural fiber that is soft, comfortable, and breathable. It is also strong and durable.

Uses: Cotton is used in a variety of products, including clothing, bedding, and towels. It is also used in home décor, such as curtains and upholstery.

Care instructions: Cotton can be machine-washed and dried.

Denim

Properties: Denim is a heavy, twill-weave cotton fabric. It is strong and durable.

Uses: Denim is primarily used in jeans. It is also used in other clothing items, such as jackets and skirts.

Care instructions: Denim can be machine-washed and dried.

Double gauze

Properties: Double gauze is a lightweight, plain-weave fabric made from cotton or linen. It has a
