Planning Your Trip

The first step in planning a road trip in the age of COVID is to choose your destination. You'll want to pick a place that is relatively close to home and that has a low number of COVID-19 cases.

Once you've chosen your destination, you'll need to map out your route. Be sure to include plenty of stops along the way so that you can stretch your

legs and grab a bite to eat. You'll also want to factor in time for unexpected delays, such as traffic or weather.

When you're making your hotel reservations, be sure to ask about their COVID-19 safety protocols. You'll want to choose a hotel that has implemented measures to protect their guests, such as enhanced cleaning and disinfection procedures.

Packing for Your Trip

When you're packing for your road trip, be sure to include plenty of essential items, such as food, water, and a first-aid kit. You'll also want to pack a few extra masks and hand sanitizer.

In addition to the essentials, you may also want to pack some items that will help you stay entertained during your trip, such as books, games, or movies. If you're traveling with children, be sure to pack some toys and activities to keep them busy.

Staying Safe on Your Trip

Here are a few tips to help you stay safe on your road trip:

- Wear a mask when you're in public places.
- Wash your hands frequently with soap and water.
- Avoid touching your face.
- Maintain a social distance of at least 6 feet from others.
- If you're feeling sick, stay home.

By following these tips, you can help reduce your risk of contracting COVID-19 on your road trip.

Road tripping in the age of COVID-19 is still possible, but it's important to take some extra precautions to stay safe. By planning ahead, packing the right items, and following the safety tips above, you can have a safe and enjoyable road trip experience.
